

INTRODUCTION

The purpose of the Register is to aid in networking across the multiple arenas where *CBNRM Net* members, incl. practitioners, managers and researchers, are active. The members of this growing global community of practice are separated along several dimensions, including national borders, cultures, political systems, religions, and languages that prevent easy flow of information, knowledge and experiences. Effective networking strategies must aim to overcome these obstacles to effective communication of relevant knowledge in order to enhance learning and contribute to capacity building. Write to <mail@cbnrm.net> to request the email address of particular members that you would like to get in touch with.

The Register is organized in the following regions: (1) Africa (Sub-Sahara), (2) North Africa and the Middle East, (3) Western Europe, (4) Eastern Europe, West Asia and Central Asia (incl. Russia and the countries in transition), (5) South Asia, (6) East Asia (incl. parts of peninsular South-East Asia), (7) North America, (8) Latin America and the Caribbean (incl. Central America), and (9) The Pacific (incl. parts of peninsular South-East Asia).

There are both individual and institutional members. Individual members are listed alphabetically according to last name. The following information is included: (1) last name(s), (2) first name(s), (3) job title/position, (4) unit/dept./ministry; etc., (5) company, NGO, organization, etc., and (6) city, state and country of residence. In a few cases other relevant information are included.

Institutional members are typically NGOs, development projects and organisations. The following information is included: (1) name, (2) mother organization/company; donor; etc. (when relevant), and (3) city, state and country where the office or headquarters is located.

Individual members are listed according to place of residence, which often do not coincide with the country or countries in which they work. Given the facts of how many CBNRM stakeholders work, and the information on members available, this is currently the best way of organizing the membership database. The Register can be developed in various ways in order to increase and expand its usefulness for networking purposes. The Membership Application Form contains information that can be used towards this. Write to <mail@cbnrm.net> with your suggestions.

The Register can be downloaded from the following *CBNRM Net* web page: <<http://www.cbnrm.net/members/register.html>>. Further information on the Register is also available here. Statistics on the *CBNRM Net* membership are available from the following *CBNRM Net* web page: <<http://www.cbnrm.net/about/website/>>.

In several cases information in the Register is incomplete, for example, many organisations and projects are represented only by means of abbreviations, and information is missing. In other cases information will be incorrect or old. Please send updates and corrections to: <mail@cbnrm.net>.
